Professional Profile:

Hello! My name is Hiller Saavedra Acosta, professional in business administration, Full Stack Web developer, and student in multimedia and web development technology from sena, taking my first steps in the tech sector, but with extensive experience in customer service and excellent interpersonal relationships with a strong desire to learn and constantly improve my skills. I love working in teams and collaborating with other developers to create creative and efficient solutions, handling languages and tools such as: Express, Angular, Node, HTML, CSS, JavaScript.
